

Riverview School
COVID-19 Response Plan
September 2021

September 2021

Dear Community Members,

In planning for the 2021-2022 school year, we have continued to look at all we have learned thus far. Our Medical Advisory Team, which includes a consulting Epidemiologist, as well as our licensing agencies, have provided ongoing guidance and information related to what programming looks like for the fall 2021. Partnerships with families are always important, but perhaps never more so than when we need to collaborate to ensure the safety of our community. As we have done previously, we will strive to find the right balance between ensuring community safety and continually pushing forward with enriching programming.

One of the primary things we've learned is just how effective the vaccine is. If you have not had your child vaccinated, we strongly encourage you to do so. The percent of students who are vaccinated is an important metric that dictates program flexibility. Vaccination remains the number one mitigation tool we have in limiting the spread of COVID-19 on campus.

We are incredibly proud of each and every member of our community. Our students and staff have demonstrated flexibility and resilience in the midst of circumstances that none of us could have ever imagined. Please take the time to thoroughly review these protocols and this response plan, and please reach out if you have questions. Please also be aware that many of these protocols are mandated by our licensing agencies. Of course these assessments of the plan and programming remain ongoing; we will keep you informed throughout the process.

Thank you for your support and partnership.

Sincerely,

A handwritten signature in black ink, appearing to read "Stewart", written in a cursive style.

Stewart Miller
Head of School

Introduction

The number one priority of Riverview's **COVID-19 Response Plan** has been and remains the health and safety of our students, staff, and community. Under the guidance of licensing, state, federal, and local agencies, and a team of expert consultants, the Riverview Leadership team and Medical Advisory team continue to work collaboratively to develop and update protocols, procedures, and programming that promote safety and security for all members of our community. What follows is a comprehensive plan designed to mitigate and manage the risk of COVID-19 on our campus while still fulfilling our commitment to empowering our students to grow, learn, and thrive.

It is important to note that it is not one mitigation strategy but a combination of all these strategies utilized together that substantially reduce the risk of transmission. The **COVID-19 Response Plan** is a living document and will be updated as circumstances evolve and knowledge and understanding of COVID-19 increases. The entire Riverview team is committed to providing students with an exceptional experience.

COVID-19 RESPONSE LEADERS

- Maria Cashdollar, Assistant Head of School/Director of Education
- Cate MacFarland, Director of Health Care Services
- Deana White, Assistant Head of School/Director of Student Life

RETURN TO CAMPUS TASK FORCE

When COVID first hit and Riverview was forced to go remote, a Return to Campus Task Force was formed with the goal to create a viable plan for returning to on-campus programming while prioritizing the health and safety of the entire Riverview Community. The Task Force is comprised of:

- Chris Barnatchez, GROW Residential Program Coordinator
- Thomas Black, Wellness and Recreation Coordinator
- Maria Cashdollar, Assistant Head of School/Director of Education
- Richard Garnett, Director of Facilities
- Cassie Haven, GROW Education Coordinator
- Nancy Hopkins, Director of Admissions
- Sara Jackson, Middle School/High School Residential Program Coordinator
- Cate MacFarland, Director of Health Care Services
- Michelle Mendes, Clinical Coordinator
- Kyle Merrill, GROW Education Coordinator
- Stewart Miller, Head of School
- Stefanie Patterson, Project Search Coordinator
- Maura Smith Stein, Vocational Coordinator
- Mary Beth Thacher, Middle School/High School Education Coordinator
- Deanna White, Assistant Head of School/Director of Student Life

SUBCOMMITTEES

- Health and Safety
- Legal/Financial
- Living and Learning
- Programming

CONSULTATION AND GUIDANCE SOURCES

The Return to Campus Task Force has been closely following guidance from the Centers for Disease Control and Prevention, the Massachusetts Department of Public Health, the Department of Early Education and Care, the Department of Elementary and Secondary Education, the Executive Office of Health and Human Services, the American Academy of Pediatrics, and the Massachusetts Association of Approved Private Schools. We will continue to implement this guidance into our policies and protocols.

Consulting Professionals:

Health and Safety

- William Greendyke, MD - Infectious Disease Specialist, Columbia University
- Roshann Hooshmand, MD - Cape Cod Pediatrics
- Dave Mason - Director Sandwich Board of Health

Legal/Financial

- Jeanine Brown-Smith, Attorney at Law whose primary practice is interfacing with Massachusetts special needs schools' licensing agencies (DESE, EEC, OSD)
- Lawrence Murray, School Counsel

Consulting Professionals: (continued)

Programmatic

- Karin Bilich, Vice President of Editorial Content at Understood.org
- Bob Cunningham, Executive Director of Learning Development at Understood.org
- Melinda Evans, Director of Professional Development Programs at Understood.org
- Brigid Moriarty-Guerrero, Senior Consultant at 2Revolutions (blended learning)
- Ben Rayer, Partner and founder of 2Revolutions (blended learning)
- Elizabeth Stringer-Keefe, Associate Professor/Director Graduate Education at Stonehill College and President at Massachusetts Council for Exceptional Children

HEALTH AND SAFETY MEASURES

Vaccination	<p>Vaccination is one of the greatest tools we have for helping mitigate the introduction and spread of COVID-19 within our school community. All students and staff are <u>strongly encouraged</u> to obtain vaccination for the COVID-19 virus. Any questions or concerns regarding the vaccination should be directed to your personal health care provider. Staff and students who are not vaccinated will be subject to greater levels of restriction and limitations.</p>
Travel to and From Riverview	<p>All students are expected to adhere to the Massachusetts established protocols for travel into and within Massachusetts. Please consult the link below for the most up to date information regarding this advisory. Based on the prevalence of COVID-19 in any given area, Riverview reserves the right to establish more stringent protocols than those outlined on Mass.gov.</p> <p style="text-align: center;">Travel Information Related to COVID-19</p> <p>International Students: International students must meet all SEVIS requirements and follow all United States guidelines related to international travel.</p> <p style="text-align: center;">International Travel</p>
Screening Upon Arrival with Parent/Guardian	<p>A parent, guardian or responsible adult must accompany any residential students to campus at the start of the school year and after any overnight visits home for purposes of arrival screening through the Health Care Center. This is likewise required of any student starting on one of the designated enrollment dates during the course of the year.</p>
Entry/Overnight Visit Re-Entry Exposure Questionnaire	<p>Parents are required to complete an Entry/Re-Entry Exposure Questionnaire for the student and their family regarding possible COVID-19 exposure risks upon the student’s initial and any subsequent entries to campus following an overnight visit. Any responses indicating an increased risk may delay a person’s ability to enter campus.</p>

<p>COVID-19 Testing</p>	<p>All students will require a Negative PCR COVID Test within 72 hours of check in for the school year.</p> <p>Testing center options can be found at your state’s COVID resource page. COVID-19 Testing Sites in Massachusetts</p> <p>It is important to confirm that the test is a PCR test. When scheduling a test, we encourage you to inquire about turnaround time. Families are asked to email or fax negative COVID results to the Health Care Center. Fax # 508-833-7004 or hcc@riverviewschool.org. Please note that students are not able to enter the dormitory or remain on campus without documentation of a negative test.</p> <p><u>Symptomatic Students and/or Staff</u> Symptomatic students or employees will be triaged for testing based on their symptoms. We will be following the guidance from DESE and EOHHS regarding testing. Testing options that may be utilized throughout the school year include PCR testing done via Coastal Medical, Abbott ID Now Testing done via Cape Cod Pediatrics, or Abbott Binax Now Antigen testing done by the Health Care team. Other options may be available based on our needs. Which test used will be determined by the assessment of the student’s symptoms.</p>
<p>Social/Physical Distancing</p>	<p>Students and staff are encouraged to maintain six feet of physical distance to the greatest extent possible.</p> <p>As much as possible, three feet physical seating distance is maintained in the classroom. Physical distancing is reinforced to the greatest extent possible within the residential program.</p>
<p>Symptom and Exposure Screening</p>	<p><u>Daily Screening:</u> Students are screened daily for symptoms of illness or potential exposure to an individual who has displayed symptoms of illness. Day student families are required to complete a daily symptom screening using the Magnus app prior to their student arriving on campus each morning.</p> <p>Staff are required to conduct a self-screen daily. Daily self-assessments include screenings for symptoms of illness or potential exposure to an individual who has displayed symptoms of illness. Whether or not</p>

	<p>employees are coming to campus, all staff are required to report to both their direct supervisor and Healthcare if they are symptomatic, or if they are unvaccinated and have been potentially exposed to COVID. If a symptomatic staff person is cleared to come to work, whether they are vaccinated or not, they will be required to wear a mask for the duration of their symptoms or until they have a negative COVID test.</p> <p><u>Exposure - Unvaccinated Students and/or Staff</u> If an unvaccinated staff or student has been identified as being a close contact of someone who has tested positive for COVID-19, they are instructed to quarantine in accordance with the CDC and Department of Public Health guidelines noted in the link below.</p> <p><u>Exposure - Vaccinated Students and/or Staff</u> Per the CDC, DESE, and EOHHS vaccinated individuals do not have to quarantine if they have been exposed to someone who has tested positive as long as they are not experiencing any COVID like symptoms. However, the COVID Response Team reserves the right to require a person to quarantine should their particular circumstances warrant it. If a vaccinated person is experiencing symptoms they will need to have a COVID-19 test to determine their status.</p> <p>COVID-19: When to Quarantine</p>
<p>Sick Policies</p>	<p>Sick policy rules for all staff and students are strictly enforced to mitigate the risk of transmission of COVID-19 within the Riverview Community. If you are experiencing symptoms consistent with COVID-19: fever/chills, new cough (not related to a chronic condition), shortness of breath or difficulty breathing, fatigue, muscle or body aches, congestion or runny nose not related to seasonal allergies, new loss of taste or smell, sore throat, gastrointestinal symptoms different from baseline, staff should contact their supervisor and Health Care as soon as possible. Health Care will triage the symptoms and vaccination status to determine if the staff person will be cleared to come to work. Symptomatic residential students assessed to have symptoms that require testing will be moved to the isolation dorm until COVID test results are available.</p>

<p>Masks/Face Coverings</p>	<p><u>Outdoors</u></p> <ul style="list-style-type: none"> • All staff and students do not have to wear masks when outdoors, even if distance cannot be maintained. <p><u>Vaccinated Students</u></p> <ul style="list-style-type: none"> • At this time, <u>vaccinated</u> students must wear masks in all indoor facilities except for their own dormitory. Masks are required in classrooms, dorms other than their own, and other buildings such as the library, seminar rooms, auditorium, and Cohen Center. <p><u>Unvaccinated Students</u></p> <ul style="list-style-type: none"> • Unvaccinated students are required to wear masks at all times during the academic day. Unvaccinated students must wear their masks in the dormitory, with the exception of in their rooms. • Unvaccinated students may not visit other dorms. • Unvaccinated students will be assigned to a designated table in the dormitory and dining facilities in order for them to be able to remove their masks to eat. <p><u>Transportation and Community</u></p> <ul style="list-style-type: none"> • All staff and students must wear masks at all times when on school vehicles. • All students and staff must wear masks when inside public spaces in the community. • <u>Masks are mandatory on campus inside and outside for all students, staff, and family on Opening Day.</u> <p>Students are required to have a minimum of one cloth mask for each day of the week that can be laundered and re-used weekly. Students may also bring their own ample supply of disposable masks. Riverview supplies disposable masks for use as needed. As many masks are similar, all masks should be labelled with a sewn label or a laundry marker. For safety and sanitation purposes, staff may not handle student masks.</p> <p>Unvaccinated staff may remove masks to eat, at which point, they must maintain at least six feet of physical distance and be seated at a table separate from others.</p>
------------------------------------	--

<p>Hand Hygiene</p>	<p>Staff and students follow a regular schedule of hand hygiene. Handwashing facilities and/or hand sanitizing stations are available in all classrooms, dormitories, and common entry points.</p>
<p>Cleaning and Disinfecting Protocols</p>	<p>Sanitation and cleaning protocols have been implemented by Riverview Staff in compliance with CDC recommendations.</p>
<p>High Risk Students and/or Students with High Risk Family Members Living in Their Household</p>	<p>Families should consult with a health care provider if the student and/or family members living in the household have medical issues that place them into a high risk category.</p>
<p>Visitation</p>	<p><u>Vaccinated Students</u> Students who are two weeks post their 2nd dose of the COVID-19 vaccine may visit with their family off-campus without needing to quarantine or produce a negative test result upon their return to campus. Vaccinated students returning to campus from an overnight visit home must self-attest they are symptom free upon arrival.</p> <p><u>Unvaccinated Students</u> Students who have not received the COVID vaccine may have on-campus family visits at designated times on Tuesday and Wednesday evenings when staffing allows. On-campus visits will only be available to unvaccinated students due to staffing and space restrictions. On-campus visits will be structured and time limited. On-campus visitation protocols must be strictly adhered to.</p> <p><u>On-Campus Visitation Protocols</u> If a family would like a student who has not received the COVID vaccine to go home for a visit, the student will need to follow a pre-arrival quarantine and provide a negative COVID test prior to their return. The quarantine will need to be 7 full days with a negative COVID test taken on or after Day 5 of their time at home. If there is a family event/outing/vacation that your student is going home for, day 1 of their quarantine will begin on the day after the event/outing/vacation is over.</p>

<p>Contactless Drop-off</p>	<p>If a parent or guardian needs to arrange a contactless drop-off of student belongings, contact your student’s residential supervisor to schedule an appointment. Drop-offs may be scheduled Monday-Friday between 10am-3pm or 5pm-7pm. All contactless drop-offs are to be left in a designated space outside of the residential office. If perishable items are being dropped off parents/guardians can call X-257 to alert the Residential Office that the item has arrived. Parents or guardians dropping off items should not go to the dorm and are not allowed to enter any buildings or have contact with any staff or students while on campus. Contactless drop-offs are limited to once per week. Any additional items that need to be dropped off will need to be shipped.</p>
<p>Campus Closure</p>	<p>While we do not anticipate this being an issue, in the event that it becomes necessary for the Riverview campus to close due to an outbreak of COVID either short or long term, families are expected to make necessary travel arrangements/pick up their student within these time periods:</p> <p><u>Expectation for Pick-Up Times:</u></p> <ul style="list-style-type: none"> ● Families Within Driving Distance: Driving time + 4 hours ● Families requiring a flight: 48 hours ● International Families: To notify their appointed stateside emergency contact who will follow the pick up times noted above. ● Should a family not be able to arrange for pick-up within these defined pick up times, care and oversight of the student will be charged at a rate of \$50.00/hr. ● A list of potential short term rental/lodging options will be provided for families who choose to remain local either for short or longer term.
<p>Meetings/Outside Providers</p>	<p>In order to minimize the risk of contact and exposure, Riverview prefers and strongly recommends that meetings continue to be held virtually at this time. In the event that an in-person meeting is required, the number of in-person participants is limited due to space limitations and physical distancing requirements and some team members may still need to attend virtually. Anyone arriving on campus will be required to complete all screening requirements. Outside providers must provide proof of vaccination prior to the meeting. Any potential screening flags,</p>

	<p>including not having proof of vaccination, will result in the person not being able to attend the meeting in person at that time.</p> <p>Outside practitioners are strongly encouraged to utilize virtual formats for completing necessary tasks and meetings (testers, observers, private services, etc.). During COVID restrictions, outside providers are allowed on campus only if remote services are not possible. The provider and Riverview team will discuss the services being provided, as well as the delivery format and the final decision will be made by Riverview administration. In instances where it has been determined services cannot be delivered remotely, providers will be allowed on campus and expected to adhere to the following guidelines:</p> <ol style="list-style-type: none">1. Providers will be emailed the Visitor Self Attestation form to be completed prior to arrival. In the event that the provider is experiencing any of the symptoms or flags on the self-attestation form, they will not be permitted to come to campus.2. Outside providers will be required to provide proof of vaccination upon arrival.3. Providers are encouraged to maintain a distance of 6 feet between them and the student and/or staff at all times.4. Failure to adhere to the above protocols will result in the termination of the session. <p><u>Personal Care Providers</u></p> <ul style="list-style-type: none">● All personal care providers must wear a mask for the duration of the service, regardless of vaccination status. Personal care providers must adhere to all health and safety protocols as well as meeting all standards within their specific industry.
--	---

RESPONSE TO SUSPECTED ILLNESS/EXPOSURE

Riverview has developed quarantine and isolation protocols based on CDC recommendations and agency regulations. In the event that a student tests positive for COVID-19, the family or designee will be required to pick up and assume care of the student. The family will maintain responsibility of caring for them until which time it has been determined that they are safe to return to on-campus programming.

<p style="text-align: center;">Student Presenting With Symptoms</p>	<p>Students will be assessed by a nurse to determine further course of action.</p> <p><u>Day Students:</u> Will be held in the isolation area and parents will be notified to pick the student up within 2 hours and advised to contact their child’s PCP.</p> <p><u>Residential Students:</u> An appointment (either in person or via TeleHealth) will be made with the school’s medical consultant for evaluation and testing.</p> <p>A student or staff who is screened in for testing triggers a chain of events, including that student being moved to an isolation space while testing is scheduled, performed, and to remain in isolation until the results come back. Any student could have been exposed to the symptomatic student, and vaccination status will determine which exposed individuals may be required to quarantine.</p> <p>While best practices in a family setting are to isolate an individual who may have been exposed, and for other family members to limit contact with that individual, we will be asking our academic, residential, clinical, and cleaning staff to come to work and care for these students.</p> <p>In instances where we can secure a rapid test for the symptomatic individual, we are able to make informed determinations about the length and level of isolation, if any, that will be required.</p>
<p style="text-align: center;">Isolation (For student with symptoms or + COVID-19 Test)</p>	<p>Students who are assessed to have symptoms of illness that are outside of their baseline will be moved to a designated isolation area and be cared for by Health Care Staff until testing can be arranged. This site is separate from the general Health Care Center space. The Health Care Staff working in this setting wear PPE (Personal Protective Equipment) as recommended by the CDC.</p>

	<p>The CDC describes isolation as keeping someone who is sick or tested positive for COVID-19 away from others. If a student tests positive for COVID-19, the expectation is that a family member, or someone that the family member designates, picks the student up to be cared for off campus.</p> <p><u>Expectation for Pick-Up Times:</u></p> <ul style="list-style-type: none"> ● Families Within Driving Distance: Driving time + 4 hours ● Families requiring a flight: 48 hours ● International Families: To notify their appointed stateside emergency contact who will follow the pick up times noted above. ● Should a family not be able to arrange for pick-up within these defined pick up times, care and oversight of the student will be charged at a rate of \$50.00/hr. ● A list of potential short term rental/lodging options will be provided for families who choose to remain local while providing isolation for their student. <p>The student will be provided with academic work and may return to campus programming when they have met the criteria to discontinue isolation. This criteria includes ALL of the following:</p> <ol style="list-style-type: none"> 1. At least 10 days have passed since their onset of symptoms, AND 2. They have been fever free without the use of fever reducing medication (Advil or Tylenol) for at least 24 hours, AND 3. Their symptoms have improved.
<p style="text-align: center;">Quarantine (For unvaccinated student having been identified as being in Close Contact with individual who has been diagnosed with COVID-19)</p>	<p><u>Non-Vaccinated Students</u></p> <p>Non-vaccinated students who are assessed to have potentially been in close contact with an individual who has been diagnosed with COVID-19 need to be quarantined based on current CDC and DPH guidance.</p> <p>The CDC describes quarantine as keeping a person who was in close contact with someone diagnosed with COVID-19 away from others.</p> <p><u>This will entail unvaccinated residential students returning home to quarantine and unvaccinated day students remaining home.</u></p> <p>COVID-19: When to Quarantine</p>

	<p><u>Vaccinated Students and Staff</u></p> <p>Per the CDC, DESE, and EOHHS vaccinated individuals do not have to quarantine if they have been exposed to someone who has tested positive as long as they are not experiencing any COVID like symptoms. However, the COVID Response Team reserves the right to require a person to quarantine should their particular circumstances warrant it. If a vaccinated person is experiencing symptoms they will need to have a COVID-19 test to determine their status. Families may be asked to come pick up your symptomatic student pending test results.</p>
<p>Contact Tracing</p>	<p>Riverview staff work in collaboration with the Sandwich Board of Health on contact tracing efforts and enforcing quarantine of exposed individuals.</p>

SCHOOL CALENDAR AND TRAVEL

School Calendar	The School reserves the right to make changes to the school calendar based on the current course of the pandemic and its impact on staffing.
Transportation/ Appointments	<p>Riverview will arrange private hire drivers for routine medical/dental appointments and to the airport for trips home when drivers are available. If drivers are not available you will need to make private arrangements to get your child to their appointment or point of departure.</p> <p>Riverview will provide local transportation to medical appointments for urgent/emergent health needs. It is recommended that all other appointments, including routine medical/dental appointments be scheduled when you are able to drive your child yourself.</p>
Day Student Transportation	Families are responsible for providing/arranging transportation for day students. In some instances, this may include working with the student’s home school district to set up such plans. In the event that changes in arrangements are needed, the family is responsible for communicating this information to the school district and/or driver. Drivers/families drop off and pick up day students at the front of James Center where students are met by a staff person. Parents/drivers are required to sign in and out their student(s) in the James Center. It is the expectation of Riverview that all health and safety requirements be adhered to during any transportation to and/or from Riverview.
Travel	Riverview provides transportation to and from Boston’s Logan International Airport and T. F. Green International Airport located in Warwick, Rhode Island on designated Riverview School travel days. If your child travels on days other than designated travel days, you may arrange for transportation through a private service. Transportation to these airports can also be arranged through the school for a fee if there is availability of a driver. All transportation is coordinated by our Travel Associate. West Coast and International students travel the day before designated travel days to allow for unfavorable weather changes. Please confirm the designated travel date for international students with the Travel Associate prior to booking.

	<p>Students who are flying will need to have the ability to navigate the airline terminal independently from the security check-point to their departure gate. This will include the ability to wait for their flight and problem solve any delays or challenges that may arise. We will have staff accompany students to the airport and remain at the airport until all flights have departed, but staff will not accompany students beyond security. If your student does not possess the skills to navigate the airline terminal independently, you will need to arrange accommodations through the airline or make alternative travel arrangements.</p> <p>We are strongly encouraging any parent who is within driving distance to come to campus to pick your child up on departure travel days.</p>
<p>Transportation While in School</p>	<p>All staff and students must wear masks at all times in vehicles. Windows on vehicles must remain open to maximize ventilation. Students and staff, both vaccinated and unvaccinated, are required to wear masks on any public transportation.</p>

PROGRAMMATIC - General

<p>Delivery of Instruction</p>	<p>All instruction at Riverview will be delivered in person. Remote learning will no longer be provided. In the event that it becomes necessary for a student to go home for an extended period during the course of the year, work packets and instructional materials will be provided.</p>
<p>Dorm Placements</p>	<p>Students reside in single and double rooms as they always have. Students in a medically high risk category are considered for a single room based on availability and upon request. Students who are not vaccinated are not eligible to have a roommate.</p>
<p>Dining Services</p>	<p><u>Breakfast:</u> MS/HS breakfast is prepared by SAGE and eaten in the Helmsman. GROW students prepare their own breakfast in the dorm.</p> <p><u>Lunch:</u> MS/HS/GROW - Lunch is prepared by SAGE and eaten in the Helmsman for Middle School and High School Students and Hunter Commons for GROW students.</p> <p><u>Dinner:</u> MS/HS dinner is prepared by SAGE and eaten in the Helmsman. GROW Students prepare their meals in the dorms and have opportunities to work on cooking skills.</p> <p><u>Seating for Unvaccinated Students</u> Specific tables have been designated for unvaccinated students in the dining facilities in order for them to be able to remove their masks to eat.</p>

SUMMARY - PROTOCOLS FOR UNVACCINATED STUDENTS

SUMMARY - PROTOCOLS FOR UNVACCINATED STUDENTS	<ul style="list-style-type: none">● If identified as being a close contact of someone who has tested positive for COVID-19, are instructed to quarantine at home in accordance with the CDC and Department of Public Health guidelines● Must mask in all indoor spaces, including the dormitory, with the exception of in their rooms● Are not able to have a roommate● May not visit in other dorms● Assigned to designated table in the dormitory and dining facilities for meals● Are not required to wear masks outside● May have time limited on-campus family visits at designated times, subject to staff availability● If going home or away during the course of the school year, will need to follow a pre-arrival quarantine and provide a negative COVID test prior to their return. The quarantine will need to be 7 full days with a negative COVID test taken on or after Day 5 of their time at home/away.● Will be sent home to quarantine in the event that there is a positive case on campus (residential students)/remain home (day students)
--	--

REGULATORY COMPLIANCE

The knowledge base, mandates, and directives related to COVID-19 continue to evolve. Riverview is committed to delivering on our mission with a program that will be in compliance with the requirements of our regulatory agencies. This plan is based on the most current information available and protocols will be subject to change as new guidance is released from government, federal, state, and licensing agencies.
